

## TINY SUB AND PONTOONS TO TRY RAISE LUSITANIA

**Brazilian Engineer Invents New  
Method of Recovering Treas-  
ure From Sunk Ships.**  
BY THOMAS J. PICKENS.

LONDON, July 10.—An attempt to raise the Lusitania and win from her grim hold treasure valued at \$10,000,000 is to be made this summer by Roberto Joppert Martin, a Brazilian engineer, who has just perfected a new method of wreck salvaging in deep water.

Martin's method is a miniature submarine, only eight feet long, is submerged, carrying with it a derrick flexible pontoon. The pontoon is hooked to the hull of the wreck and the derrick is used to raise the treasure.

He believes that when a sufficient number of pontoons have been attached in this manner, the vessel will rise to the surface. A derrick on the surface supplies air electricity to the submarine, which is strongly armored to enable it to resist the enormous pressure of water at 500 feet depth.

**150 Pontons Needed.**  
The submarine itself is made to adhere to the wreck by powerful electro-magnetic clamps. Estimates indicate that 150 flexible pontoons, with a buoyancy of 100 tons each, will suffice to hoist the Lusitania to the surface.

If this big operation is successful, the Lusitania will not only be raised but the huge treasure in jewels, gold, silver, iron and copper, not affected by sea water, in ships sunk by the Lusitania in deep water. The value of these losses and their cargoes is put at \$10,000,000,000.

During the war the British Admiralty salvaged from the Lusitania a total value of \$200,000,000, all sunk in water not exceeding a depth of 150 feet. Last year, in 1919, in gold bars was extracted from the Lusitania, sunk 120 feet down off the north coast of Ireland, and it is confidently expected to recover the balance of \$200,000,000 this year. But the Lusitania is too deep to be touched by divers.

Surgeons by Martin will also mean the lifting of the miner cruiser Hampshire, lying 150 feet down off the north coast of Scotland. The Admiralty wants to raise the boat, not for its value but because Lord Kitchener went down on her.

**ASKED AID FOR SOVIET,  
GOT THROWN INTO ROAD**  
British Workman Who Annoyed Premier With Insults Taken Care of by Bobby.

LONDON, July 10.—Hands of a Russian, peace Mr. Lloyd George said Henry Muller, a Russian engineer, when, cap in hand, he respectfully approached the Prime Minister while the latter was attending a wedding at Oxbott.

"Mind your own business," snapped the Russian. When he refused to leave the scene, Mr. Lloyd George said: "What the Prime Minister regarded this time is not a wedding but a police sergeant stepped up and threw the workman into the road. He told his story in the police court later, when he unsuccessfully summoned the sergeant for assault, claiming that he had a constitutional right to address the Prime Minister.

**DR. ALICE MASARYK IS  
HOPEFUL OF FUTURE**  
Daughter of President of Czechoslovakia Says Genuinely Dis-  
tressed Is Promised.

LONDON, July 10.—Alice Masaryk, daughter of the President of the Czechoslovak republic, and her mother, the president of the Czechoslovak Red Cross, who has been visiting London, expressed her distress and anxiety over the future of her country.

"There is a promise of a good harvest," she said, "the sugar beet crop is estimated at 100,000 metric tons, of which 100,000 tons will be available for export. The political outlook is also good. The new constitution having provided a sound working basis. Its democratic character afforded protection for the minorities in the German districts which could not be given up."

"The Germans," she remarked, "will not have such a hard time in the republic as we had when they were in power."

The children of Czechoslovakia are being organized into a junior Red Cross men of the Serbian Army assisting. Over 3,000 schools were built in one year in the eastern part of the country which was very much neglected under the Magyar rule, and the children are being taught the importance of personal hygiene.

**TENNESSEE CANDIDATES  
FOR GOVERNOR QUIZZED**  
Labor and Railroad Brotherhood Com-  
mittee Asks Attitude on Pro-  
posed Legislation.

CHATTANOOGA, July 10.—Candidates for Governor in Tennessee are being quizzed by a committee representing the State Federation of Labor and "big four" railroad brotherhoods. Their attitude on eight different pieces of legislation which will be favored by the unions at the next session of the General Assembly is being ascertained.

Identical questionnaires are to be presented to all candidates for the Legislature, it is reported. The questions propounded deal with anti-strike legislation, repeal of the State police law, a measure to curb profiteering, workmen's compensation and eight-hour day and minimum wage for women.

**SMUGGLED GOLD YIELDS  
RICH PROFITS IN BURMA**  
Customs Officer Finds Shipments  
Stored in Tank Filled With  
21 Feet of Water.

RANGOON, July 10.—It is stated that certain firms made a profit last year of \$14,000,000 by successfully smuggling British and American gold coins into Burma.

The Rangoon customs officials in searching a Chinese ship recently, came upon a tank filled with water to the depth of nearly twenty-one feet. One of the party dived into the water and discovered that the tank was lined with shavings, on which were a number of bags of coins. They were found to contain 13,577 Queen Victoria sovereigns and 6,623 American \$20 gold pieces.

The profit on this shipment, had it been successfully smuggled through, would have been about \$500,000.

**OFFICIALS WILL LECTURE  
IN FOREIGN TRADE SCHOOL**  
Secretary of Commerce and Shipping  
Board Chairman Will Assist in  
Courses.

WASHINGTON, July 10.—Secretary of Commerce Alexander C. Benson, of the Shipping Board; Ambassador Pezet, of Peru, and Senator Fletcher, of Florida, are among those who have agreed to lecture at the first session of the summer school of Pan-American and foreign commerce, which was announced today. The school will open a five-week term July 12.

The purpose of the school, as announced by its organizers, is to train men and women for service in the field of foreign trade, either as instructors at educational institutions, or as actual commercial representatives. Its sponsors declare it will be known as the "Plattsburgh of foreign trade."

**MOTHER SITS BY WINDOW  
WAITING FOR ABSENT BOY**  
Three Years Ago He Was Reported  
Missing in France, but  
She Still Hopes.

LONDON, July 10.—A London mother has kept a three-year vigil for her soldier son, who was "reported missing" in France in 1917.

At the corner of four cross-roads in Fimlico there is a window next to a junk store where the mother sits almost day and night, believing an armistice notification of her boy's presumed death, she is convinced he will return. Her blinds are never drawn, and daily she keeps watch until sleep overcomes her.

**DANVILLE GAS SUPPLY IS  
REACHING CRUCIAL STAGE**  
Demoralized Labor Conditions and  
Poor Quality Coal Brings Acute  
Shortage.

DANVILLE, Va., July 10.—The local gas situation reached another crucial stage this morning, and the city is in a state of panic. The gas supply is reaching a critical stage, and the city is in a state of panic.

**WOMEN VOTERS MAKE  
FAR CLEANER POLITICS**  
California Governor Denies Report  
That Universal Suffrage in Golden  
State Is Failure.

SACRAMENTO, CAL., July 10.—In compliance with a request from Mrs. Carrie Chapman Catt, national suffrage leader, Governor William Stephens has sent a telegram to Governor Roberts, of Tennessee, denying the statement of Miss Annie Beck, of Los Angeles, to the Tennessee Legislature that suffrage has proved a failure in California.

"Politics are cleaner, government better administered and the moral welfare of the people far more intelligent and efficiently promoted in California because of woman suffrage," Stephens telegraphed to the Tennessee Governor.

Statements to the contrary are not justified by facts and results. Equal suffrage in California has justified itself in every way, no exception. It was carried by about 3,000 in 1910. It would carry now by about 100,000 if voted upon by men alone. If voted upon by both men and women it would carry by 300,000.

**Kidney Remedy for 40 Years  
A Pronounced Success**  
When kidney diseases have been  
successfully treated for a period of  
more than forty years, it is reason-  
able to assume that the remedy there-  
fore must possess unusual merit.  
Such is the remarkable record of War-  
ner's Safe Kidney and Liver Remedy.  
Without its ability to give relief and  
benefit its users, it could not have ex-  
isted 40 months, much less 40 years  
of its enviable record. Many letters  
have come to us to prove that it has  
been a household remedy for years  
and years. Here is what one grate-  
ful woman has recently written:  
"I wish to say that your remedies  
have been used in our family for fif-  
teen years. We are never without a  
bottle of Warner's Safe Kidney and  
Liver Remedy in our home, and it  
has saved many a doctor's bill. It is  
—Adv.

## Ladies! Keep Fit This Hot Weather

Stomach is quick to upset—Dr.  
Caldwell's Syrup Pepsin will bring  
prompt relief and comfort

THE depressing heat makes many women careless of their health. The sunbaked becomes extra tireless and the hot kitchen adds to their discomfort. They eat cold foods and cold drinks with the result that the stomach is soon upset, and constipation follows.

It is well to know that there is a remedy that brings quick relief. It is called Dr. Caldwell's Syrup Pepsin, and you can find it in any drug store. It is a combination of simple laxative herbs with pepsin that acts on the digestive organs and soon rids the bowels of its accumulation. Take a spoonful of Syrup Pepsin at night and the constipation, headache and feverishness will be gone in the morning. You will then stand the heat with comfort.

There are thousands of women in this country who do not use anything else in these emergencies but Dr. Caldwell's Syrup Pepsin. Miss Bart, of 1045 Washington St., Grand Rapids, Mich., writes: "I am entirely on Syrup Pepsin, and I personally know many others who do. The medicine she formerly took for constipation made her sick to the stomach, but Syrup Pepsin made me feel so gently and without griping that she finds pleasure in using it."

Dr. Caldwell's Syrup Pepsin can be given to infants with entire safety. It is a truly wonderful household medicine, and a bottle should be in every home.

**FREE** Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington St., Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

## Figure this on Your Building Program

If you are using 100 men, at \$6.50 a day, and you can cut 30 days from your program---how much will you save?

That's not "theory"—nor is it an unusual happening!

We've made that example come true in many building operations.

You'll realize the reason when you understand that MINTER HOMES are "fabricated"—that is to say, 90% constructed at our factories in standard built-up units.

Before your carpenters drive a nail, the most lengthy and costly part of construction-work is completed!

These units, being standard—and inter-changeable, can be assembled and erected in a remarkably short time—making permanent, high-grade homes that pass the most rigid building codes.

The MINTER HOMES organization is the largest of its kind in the world. Our output is 60 homes every day. We employ the foremost planning and engineering ability.

Write us fully regarding your Building problem. Tell us what you want to do—the number of homes you wish, and the probable expenditure. Our Housing Engineers will show you how MINTER FABRICATED HOMES can meet your requirements.

Think what this means to you in these times of uncertain deliveries and costly delays.

MINTER HOMES are the most rigid that can be produced by any known method of construction. Large Life Insurance Companies and other large and small financial institutions throughout the country have loaned large sums on MINTER HOMES.

### A FEW OF MANY PURCHASERS OF MINTER HOMES

The Allied Homes Corporation of New York City, have erected twenty Minter Homes in various developments throughout Eastern New Jersey.

The Builders of Homes Company, of Springfield, Ohio, has recently erected ten Minter Homes in that city for the employees of the Robbins & Myers Motor Co.

The City of Winston-Salem, N. Carolina, has erected six MINTER SCHOOL HOUSES as well as eight MINTER HOMES for city employees.

The Kenosha Homes Co. of Kenosha, Wis. recently erected five MINTER HOMES in a new development in Kenosha.

The Western Clock Company of LaSalle, Illinois, recently erected five MINTER HOMES at La Salle.

A personal conference with our representatives may be effected by communicating with any of our Offices.
